## 1. INTRODUCTION

This report presents information about people seen rough sleeping by outreach teams in Lambeth between April 2013 and March 2014. Information in the report is derived from the Combined Homelessness and Information Network (CHAIN), a multi-agency database recording information about rough sleepers and the wider street population in London. CHAIN, which is commissioned and funded by the Greater London Authority (GLA) and managed by St Mungo's Broadway, represents the UK's most detailed and comprehensive source of information about rough sleeping.

The final section of the report presents information about people arriving at or departing from temporary accommodation for rough sleepers in Lambeth. People included in this section will have been seen rough sleeping at some point in their history, but not necessarily during 2013/14.

## **Percentage figures in this report**

Please note that, in most cases, percentage figures given in this report are rounded up or down to the nearest whole number. In some cases this may mean that individual figures in tables and charts do not add up to a combined total of 100%.

## **Glossary of acronyms used in this report**

**ASB:** Anti-Social Behaviour

Defined in the Crime and Disorder Act (1998) as acting 'in a manner that caused or was likely to cause harassment, alarm or distress to one or more persons not of the same household as the perpetrator.'

**CEE:** Central and Eastern European

Used to denote the ten A8 and A2 European Union accession countries (Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia).

**CHAIN:** Combined Homelessness and Information Network

A multi-agency database recording information about rough sleepers and the wider street population in London, commissioned and funded by the GLA and managed by St Mungo's Broadway.

**EEA:** European Economic Area

The 28 countries of the European Union (EU), plus a further three countries that are part of the EU's single market (Iceland, Liechtenstein and Norway). Common usage generally also includes Switzerland, whose citizens have the same rights to live and work in the UK as other EEA nationals.

**GLA:** Greater London Authority

The top-tier administrative body for Greater London, consisting of a directly elected executive Mayor of London, and an elected 25-member London Assembly.

**NLOS:** No Living on the Streets

A GLA commissioned assessment and reconnection project for longer term or entrenched rough sleepers.

**NSNO:** No Second Night Out

A GLA commissioned assessment and reconnection project for new rough sleepers. The term is also used in other contexts to refer to a wider strategy to end rough sleeping, both in London and nationwide.

## 2. ROUGH SLEEPER POPULATION ANALYSIS

### 2.1 Number of people seen rough sleeping: Flow, stock, returner model

People seen rough sleeping in the year, by the flow, stock and returner model.

2010/11 base: 257  
2011/12 base: 309  
2012/13 base: 584  
2013/14 base: 427

The flow, stock and returner model categorises people seen rough sleeping in the year according to whether they have also been seen rough sleeping in previous periods:

Category	Description
Flow	People who had never been seen rough sleeping prior to 2013/14 (i.e. new rough sleepers).
Stock	People who were also seen rough sleeping in 2012/13 (i.e. those seen across a minimum of two consecutive years).
Returner	People who were first seen rough sleeping prior to 2012/13, but were not seen during 2012/13 (i.e. those who have had a gap in their rough sleeping histories).

427 people were seen rough sleeping in the borough in 2013/14. This represents a 27% decrease when compared to 2012/13.

58% of people seen rough sleeping in the borough during the year were new rough sleepers (flow), while 31% fell into the stock category, and 11% were returners.

## 2.2 Number of times seen rough sleeping

---

People seen rough sleeping in the year, by number of times seen rough sleeping.

Base: 427

223 (52%) people were seen rough sleeping only once in 2013/14, this compares to 424 (73%) seen rough sleeping only once in 2012/13.

69% of people seen rough sleeping in the borough during 2013/14 who were new to the streets did not spend a second night on the streets during the year.

## 2.3 Rough sleeping volume: Flow, stock, returner model

People seen rough sleeping in the year, by flow, stock, returner model, and number of times seen rough sleeping.

Base (Flow): 249  
Base (Stock): 132  
Base (Returner): 46

## 2.4 New rough sleepers (flow): History prior to rough sleeping

Base: 359. Note that the base figure for this chart excludes clients where none of the three support needs were known or assessed (68).

## 4. HELPING PEOPLE OFF THE STREETS

Outreach teams and other services work to help rough sleepers into a range of accommodation types, most commonly hostels but also the private rented sector and residential treatment centres.

In 2013/14, 92 people who had been seen rough sleeping during the year were booked into accommodation by services in the borough.

The table below details the accommodation outcomes achieved with people seen rough sleeping in the year, compared to outcomes for rough sleepers in the previous year.

NSNO	210	115
NLOS	9	7

\*NLOS started operating in December 2012.

Note: Some people may have attended both NSNO and NLOS during the period.

### 4.3 Reconnection outcomes

Confirmed reconnections achieved with people seen rough sleeping in the year.

Outreach and other services help people to reconnect to their home area or country, where they are more likely to find a solution to their homelessness, for example through appropriate support networks, entitlement to accommodation or access to an alcohol treatment centre. Reconnection destinations could be another borough within London, an area elsewhere in the UK, or another country. Some people may have had more than one reconnection recorded during the year.

<b>Reconnections total (excl. destination not known)</b>	<b>12</b>	<b>100%</b>	<b>3</b>	<b>100%</b>

\*Reconnections can be recorded with multiple reasons, so the overall total will be lower than the combined sum of the separate reconnection reasons. Percentages are based on the total number of reconnections.

3 people seen rough sleeping in 2013/14 also had a confirmed reconnection recorded by services in the borough during the period.

All reconnections this year were to destinations in the UK.

Note: An individual may have had more than one accommodation departure during the period. In most cases where a person's reason for leaving has been recorded as 'Neutral', their tenancy has ended due to them dying.
