Welcome

What is Leicester Recovery College?
The Leicester Recovery College is a friendly, supportive place to try new things and progress your personal goals. We offer free courses in literacy, numeracy and digital skills as well as a wide range of creative and practical activities for those who want to discover what their interests are.

We also offer one to one support for those who wish to find employment or would like to begin the journey towards working in the future. We will help you to gain the skills you need to prepare for the workplace and will continue to support you when you find a job.

What are the Recovery College values?
The Leicester Recovery College is an inclusive place to learn and progress. At the heart of our service is the belief that learning and employment can be a life-changing experience and make a real difference to people’s recovery and wellbeing. We want to help our students to build confidence, learn new skills, and develop the strengths that they already have.
